

# COVID-19

## UPDATE

1. You may not enter unless you are authorized to use the laboratory.
2. If you are sick do not enter the lab. You should not be on campus.
3. Ensure you are thoroughly handwashing before entering and before leaving this laboratory.
4. Maintain a distance of two meters between all workers on a bench or in a closed space at any given time.
5. No training will be provided for new projects until further notice.
6. Please ensure you clean up completely and store materials before leaving the lab.
7. Please ensure appropriate personal protective equipment is available prior to starting any experiment. If adequate ppe is not available do not conduct any experiments.
8. Prepare a contingency plan in case access is severely restricted to laboratories or is shut down for a prolonged period of time. Discuss with your supervisor and lab manager.
9. It is highly recommended that you do not initiate new experiments that will require substantial time commitment or resources. Ensure a detailed standard operating process (SOP) document is available for all procedures to enable another person to complete it for you if necessary.

**Although we currently have no plans to shut down the laboratory, this may change in the future.**
